### Benefits of native plants

- **Save** time, money, water.
- **Help** protect our valuable topsoil.
- **Adapt** and **survive** in a wide range of conditions.
- **Serve** as essential wildlife hosts, habitat and food sources.

Supporting monarch butterflies and other beneficial pollinators and insects through the creation, restoration and maintenance of community native gardens and prairies.

Providing education to help others establish and sustain their own native gardens and prairies.
