

It's lawn season! Set your mower high and leave clippings on the yard. It's natural fertilizer! Make sure the clippings don't land in the street. www.waukeshacounty.gov/ywcompost

Keep your grass clippings clear of the street. Let the clippings fertilize your lawn, not our surface waters. www.waukeshacounty.gov/cleanwater

Clean streets help keep clean rivers and streams. Keep grass clippings and other debris out of the roadway. www.waukeshacounty.gov/cleanwater

Grass clippings, leaves and other debris do not belong on our streets where they get washed into our waterways. Please help keep our streets clean! www.waukeshacounty.gov/cleanwater

CLEAN ENVIRONMENT = CLEAN WATER

Keep Grass Clippings off the Streets to Protect Water Quality
